**STANDARD BENT GLASS CORP DEMONSTRATES BENT GLASS SOLUTIONS
AT THE AIA 2009 NATIONAL CONVENTION AND DESIGN EXPOSITION (APRIL 30–MAY 2)**

PITTSBURGH, Pa. -- April, 2009-- Standard Bent Glass Corp, a leading custom bent glass manufacturer, has announced its participation in the American Institute of Architects (AIA) 2009 National Convention and Design Exposition at the Moscone Center in San Francisco April 30-May 2 at Booth 2753.

The 2009 AIA Convention, themed “The Power of Diversity: Practice in a Complex World” will bring together over 800 exhibiting companies to showcase the newest architectural trends, technologies, ideas and products. As the demand for custom glass grows each year, Standard Bent Glass will display its ability to fit any custom architectural need by utilizing proprietary technology for dramatic design solutions.

“We have been looking forward to our participation in the AIA 2009 convention,” said Michael Hartley, President and Owner of Standard Bent Glass and Global Security Glazing. “Our technologically advanced product line featuring custom complex bent glass, security glass and decorative interlayer demonstrates our capability to be a top competitor in the ever-changing trends of the industry.”

With its proprietary technology, Standard Bent Glass can create nearly any desired custom mold to transform a three-dimensional digital computer image into curved glass with complex compound geometrics. Emerging as a primary source for custom architectural artistry and security glass, Standard Bent Glass produces custom spiral staircases, skylights, elevators, stadiums, bridges, curtainwalls and hundreds of other creations for business across the nation.

Available in interior and exterior applications as well as free standing works of glass art, Standard Bent Glass Corp re-shapes architectural possibilities. For more information, visit www.standardbent.com/AIA or call 800-634-9252.
