**STANDARD BENT GLASS CORP AND GLOBAL SECURITY GLAZING
DEMONSTRATE GLASS SOLUTIONS AT GLASSBUILD AMERICA 2009**

*Complex Compound Glass Bending, Decorative Interlayers and Transparent Armor® on Display
for Commercial, Residential and Military Design Needs*

PITTSBURGH, Pa. – July 8, 2009 – Standard Bent Glass Corp, a leading custom bent and decorative glass manufacturer, and Global Security Glazing, a jointly owned security glass company with Standard Bent Glass, have announced their participation in GlassBuild America 2009 from September 30 through October 2 at the Georgia World Congress in Atlanta at booth 3206.

GlassBuild America is the largest gathering of glass, window and door professionals in North America. Standard Bent Glass Corp and Global Security Glazing will demonstrate to more than 9,000 industry leaders their ability to fit any custom architectural and security need and will exhibit its newest and most innovative product lines including: SentryGlas® Expressions, Breeze™ and Transparent Armor®.

Stylish and innovative, with photo-accurate imaging, Standard Bent is one of only three companies in North America that have the manufacturing capabilities for the SentryGlas® Expressions product line. Utilizing DuPont™ technology, Standard Bent can reproduce vibrant digital images in laminated safety glass. Imaging includes colors, patterns, textures, rice papers, gradient tones and photographs. With its proprietary technology, Standard Bent recently created the Breeze™ product line which features curved glass panels with compound bends. Custom molds transform a three-dimensional digital image into curved glass with complex compound geometrics. Breeze™ can be used in interior and exterior applications, as well as in freestanding works of glass art.

Transparent Armor®, a product by Standard Bent Glass Corp and Global Security Glazing, combines glass and polycarbonates with proprietary technology to produce high-performance windshields and glazing for military vehicles worldwide. The security product meets specific standards and threat levels that are required for attack, ballistic and blast resistance and has been used in more than 130,000 windows and doors functioning in the Iraqi theatre.

-more-

The demand for custom glass grows each year and by utilizing its technology and state-of-the-art equipment, Standard Bent and Global Security have emerged as primary sources for custom architectural artistry and security glass.

Organized by the National Glass Association, along with partner organizations – the American Architectural Manufacturers Association, the Glass Association of North America, the Insulating Glass Manufacturers Alliance and the Bath Enclosure Manufacturers Association – GlassBuild America is one of the top industry tradeshow every year.

“We have been looking forward to our participation in GlassBuild America,” said Michael Hartley, President and Owner of Standard Bent Glass Corp and Global Security Glazing. “Our technologically advanced product line featuring custom complex bent glass, security glass and decorative interlayer demonstrates our capability to be a top competitor in the ever-changing trends of the industry.”

Available in interior and exterior applications as well as free standing works of glass art, Standard Bent Glass Corp re-shapes architectural possibilities. For more information, visit www.standardbent.com or call (800) 634-9252.
