**GLASS MANUFACTURING COMPANY NAMES TIMOTHY MOORE AS  
SENIOR PROCESS ENGINEER**

*--New Hire to Provide Expertise at Standard Bent Glass Corp and Global Security Glazing, Inc.--*

**Pittsburgh, Pa.,** --Oct. 27, 2009-- Standard Bent Glass Corp, Global Security Glazing, Inc., Lexguard Laminates announced today the addition of Timothy Moore as Senior Process Engineer. In his new position, Moore will oversee all glass fabrication techniques and will add additional management expertise in operations and technical sales support.

With over 25 years of industry experience, Moore has an extensive background in all facets of glass fabrication. He most recently worked at Arch Aluminum & Glass Company in Ga. as Glass Technical Services Manager where he developed a positive informational exchange between the customer base and the organization for continuous product development. He also previously held the position of Technical Services Manager at Pdc Glass and Metal Service in Cheswick, Pa. where he specialized in production and sales support.

“We are pleased to have Tim join the team,” said Michael Hartley. “He has an exceptional track record in glass fabrication and industry management, and I am confident that with his management we will continue to build on our momentum through 2009.”

Moore gained industry knowledge with a specialization in glass fabrication trouble shooting as well as formal training in wind and blast design. In addition to his education, Moore has also served on the Safety Glazing Certification Council (SGCC) Board of Governors and was a Technical Committee Chair for both the Insulated Glass and Mirror Division.

-more-

The hiring of Moore quickly followed Michael Hartley's recent acquisition of Charleston, S.C.'s Coastal Glass Distributors, the largest patterned glass fabricator, distributor and warehouse for the architectural industry in North America.

**About Standard Bent Glass Corp**
